RELEASE NOTE FOR THE BRAHMAPUTRA RELEASE OF OPNFV WHEN USING COMPASS4NFV AS A DEPLOYMENT TOOL

1.1 Abstract

This document describes release notes of OPNFV when using Compass4nfv as a deployment tool covering it's features, limitations and required system resources.

1.2 Introduction

Compass4nfv is an OPNFV installer project based on open source project Compass, which provides automated deployment and management of OpenStack and other distributed systems. Provide a brief introduction of how this release is used in OPNFV release using <XYZ> as a deployment tool

Be sure to reference your installation-instructions.
