DOMINO PLATFORM COMPONENTS AND FEATURES

<https://wiki.opnfv.org/domino>

1.1 Features

Domino platform, as of Colorado release, provides the following features:

- Policy Label definitions in line with the normative definitions that use Tosca Simple NFV profile
- Tosca Template file distribution
- Multi-site resource scheduling based on subscribed policy labels

1.2 Components

Domino platform, as of Colorado release, consists of the following components:

- One Domino Server
- One or more Domino Clients
- domino-cli.py application as command line interface
- One or more OpenStack Sites with Heat

Note: Tosca Template files are sample for reference, does not correspond to any actual service or VNF.
