Parser Configuration Guide

Release draft (1a0bd86)

OPNFV

August 22, 2016

1 Parser configuration **1**
1.1 Pre-configuration activities 1
1.2 Hardware configuration 1
1.3 Feature configuration 1

2 Parser configuration **3**
2.1 Pre-configuration activities 3
2.2 Hardware configuration 3
2.3 Jumphost configuration 3
2.4 Platform components configuration 3

CHAPTER

ONE

PARSER CONFIGURATION

Parser can be configured with any installer in current OPNFV, it only depends on openstack.

1.1 Pre-configuration activities

For parser, there is not specific pre-configuration activities.

1.2 Hardware configuration

For parser, there is not hardware configuration needed for any current feature.

1.3 Feature configuration

For parser, there is not specific configure on openstack.

CHAPTER

TWO

PARSER CONFIGURATION

Parser can be configured with any installer in current OPNFV.

2.1 Pre-configuration activities
