

OPNFV Test Framework document

Release arno.2015.1.0 (a8636a5)

OPNFV

August 16, 2016

CONTENTS

1	Using the test frameworks in OPNFV	1
2	<test framework> preparation and installation	3
3	<test framework> userguide and reporting document	5

USING THE TEST FRAMEWORKS IN OPNFV

Testing is one of the key activities in OPNFV, validation can include component level testing, system testing, automated deployment validation and performance characteristics testing.

The following section outlines how to use the test projects that are delivered on the OPNFV platform for the purpose of testing components and VNFs in the context of a Brahmaputra deployment.

Needs to be completed according to the testing WG needs.
