

# Yardstick Framework Code Documentation

*Release brahmaputra.2.0 (654e147)*

**OPNFV**

April 27, 2016

CONTENTS

<b>1</b>	<b>yardstick</b>	<b>1</b>
1.1	yardstick package . . . . .	1

## YARDSTICK

### 1.1 yardstick package

#### 1.1.1 Subpackages

yardstick.benchmark package

Subpackages

yardstick.benchmark.contexts package

Submodules

yardstick.benchmark.contexts.base module

yardstick.benchmark.contexts.dummy module

yardstick.benchmark.contexts.heat module

yardstick.benchmark.contexts.model module

yardstick.benchmark.contexts.node module

Module contents

yardstick.benchmark.runners package

Submodules

yardstick.benchmark.runners.arithmetic module

yardstick.benchmark.runners.base module

`yardstick.benchmark.runners.duration` module

`yardstick.benchmark.runners.iteration` module

`yardstick.benchmark.runners.sequence` module

#### Module contents

`yardstick.benchmark.scenarios` package

#### Subpackages

`yardstick.benchmark.scenarios.availability` package

#### Subpackages

`yardstick.benchmark.scenarios.availability.attacker` package

#### Submodules

`yardstick.benchmark.scenarios.availability.attacker.attacker_baremetal` module

`yardstick.benchmark.scenarios.availability.attacker.attacker_process` module

`yardstick.benchmark.scenarios.availability.attacker.baseattacker` module

#### Module contents

`yardstick.benchmark.scenarios.availability.monitor` package

#### Submodules

`yardstick.benchmark.scenarios.availability.monitor.basemonitor` module

`yardstick.benchmark.scenarios.availability.monitor.monitor_command` module

`yardstick.benchmark.scenarios.availability.monitor.monitor_process` module

#### Module contents

#### Submodules

yardstick.benchmark.scenarios.availability.serviceha module

Module contents

yardstick.benchmark.scenarios.compute package

Submodules

yardstick.benchmark.scenarios.compute.cpload module

yardstick.benchmark.scenarios.compute.cyclictest module

yardstick.benchmark.scenarios.compute.lmbench module

yardstick.benchmark.scenarios.compute.perf module

yardstick.benchmark.scenarios.compute.unixbench module

Module contents

yardstick.benchmark.scenarios.dummy package

Submodules

yardstick.benchmark.scenarios.dummy.dummy module

Module contents

yardstick.benchmark.scenarios.networking package

Submodules

yardstick.benchmark.scenarios.networking.iperf3 module

yardstick.benchmark.scenarios.networking.netperf module

yardstick.benchmark.scenarios.networking.ping module

yardstick.benchmark.scenarios.networking.ping6 module

yardstick.benchmark.scenarios.networking.pktgen module

`yardstick.benchmark.scenarios.networking.sfc` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation_noisy` module

`yardstick.benchmark.scenarios.networking.vtc_throughput` module

`yardstick.benchmark.scenarios.networking.vtc_throughput_noisy` module

Module contents

`yardstick.benchmark.scenarios.parser` package

Submodules

`yardstick.benchmark.scenarios.parser.parser` module

Module contents

`yardstick.benchmark.scenarios.storage` package

Submodules

`yardstick.benchmark.scenarios.storage.fio` module

Module contents

Submodules

`yardstick.benchmark.scenarios.base` module

Module contents

Module contents

`yardstick.cmd` package

Subpackages

`yardstick.cmd.commands` package

## Submodules

yardstick.cmd.commands.runner module

yardstick.cmd.commands.scenario module

yardstick.cmd.commands.task module

## Module contents

## Submodules

yardstick.cmd.cli module

## Module contents

yardstick.common package

## Submodules

yardstick.common.task\_template module

yardstick.common.template\_format module

yardstick.common.utils module

## Module contents

yardstick.dispatcher package

## Submodules

yardstick.dispatcher.base module

yardstick.dispatcher.file module

yardstick.dispatcher.http module

yardstick.dispatcher.influxdb module

yardstick.dispatcher.influxdb\_line\_protocol module

## Module contents

yardstick.orchestrator package

## Submodules

yardstick.orchestrator.heat module

## Module contents

yardstick.plot package

## Submodules

yardstick.plot.plotter module

## Module contents

---

yardstick package

## Module contents

yardstick.vTC.apexlake package

Subpackages

yardstick.vTC.apexlake.experimental\_framework package

Subpackages

yardstick.vTC.apexlake.experimental\_framework.benchmarks package

Submodules

yardstick.vTC.apexlake.experimental\_framework.benchmarks.benchmark\_base\_class module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_noisy\_neighbors\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.multi\_tenancy\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.rfc2544\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.test\_benchmark module

Module contents

yardstick.vTC.apexlake.experimental\_framework.constants package

Submodules

yardstick.vTC.apexlake.experimental\_framework.constants.conf\_file\_sections module

yardstick.vTC.apexlake.experimental\_framework.constants.framework\_parameters module

Module contents

yardstick.vTC.apexlake.experimental\_framework.libraries package

Module contents

yardstick.vTC.apexlake.experimental\_framework.packet\_generators package

#### Submodules

yardstick.vTC.apexlake.experimental\_framework.packet\_generators.base\_packet\_generator module

yardstick.vTC.apexlake.experimental\_framework.packet\_generators.dpdk\_packet\_generator module

#### Module contents

#### Submodules

yardstick.vTC.apexlake.experimental\_framework.api module

yardstick.vTC.apexlake.experimental\_framework.benchmarking\_unit module

yardstick.vTC.apexlake.experimental\_framework.common module

yardstick.vTC.apexlake.experimental\_framework.deployment\_unit module

yardstick.vTC.apexlake.experimental\_framework.heat\_manager module

yardstick.vTC.apexlake.experimental\_framework.heat\_template\_generation module

#### Module contents

#### Submodules

yardstick.vTC.apexlake.setup module

#### Module contents

#### Module contents

### 1.1.2 Submodules

#### 1.1.3 yardstick.main module

#### 1.1.4 yardstick.ssh module

#### 1.1.5 Module contents
