

# **Yardstick Framework Code Documentation**

*Release draft (6015231)*

**OPNFV**

March 23, 2016

CONTENTS

<b>1</b>	<b>yardstick</b>	<b>1</b>
1.1	yardstick package . . . . .	1

## YARDSTICK

### 1.1 yardstick package

#### 1.1.1 Subpackages

yardstick.benchmark package

Subpackages

yardstick.benchmark.contexts package

Submodules

yardstick.benchmark.contexts.base module

yardstick.benchmark.contexts.dummy module

yardstick.benchmark.contexts.heat module

yardstick.benchmark.contexts.model module

yardstick.benchmark.contexts.node module

Module contents

yardstick.benchmark.runners package

Submodules

yardstick.benchmark.runners.arithmetic module

yardstick.benchmark.runners.base module

`yardstick.benchmark.runners.duration` module

`yardstick.benchmark.runners.iteration` module

`yardstick.benchmark.runners.sequence` module

#### Module contents

`yardstick.benchmark.scenarios` package

#### Subpackages

`yardstick.benchmark.scenarios.availability` package

#### Subpackages

`yardstick.benchmark.scenarios.availability.attacker` package

#### Submodules

`yardstick.benchmark.scenarios.availability.attacker.attacker_baremetal` module

`yardstick.benchmark.scenarios.availability.attacker.attacker_process` module

`yardstick.benchmark.scenarios.availability.attacker.baseattacker` module

#### Module contents

`yardstick.benchmark.scenarios.availability.monitor` package

#### Submodules

`yardstick.benchmark.scenarios.availability.monitor.basemonitor` module

`yardstick.benchmark.scenarios.availability.monitor.monitor_command` module

`yardstick.benchmark.scenarios.availability.monitor.monitor_process` module

#### Module contents

#### Submodules

`yardstick.benchmark.scenarios.availability.serviceha` module

Module contents

`yardstick.benchmark.scenarios.compute` package

Submodules

`yardstick.benchmark.scenarios.compute.cpload` module

`yardstick.benchmark.scenarios.compute.cyclictest` module

`yardstick.benchmark.scenarios.compute.lmbench` module

`yardstick.benchmark.scenarios.compute.perf` module

`yardstick.benchmark.scenarios.compute.unixbench` module

Module contents

`yardstick.benchmark.scenarios.dummy` package

Submodules

`yardstick.benchmark.scenarios.dummy.dummy` module

Module contents

`yardstick.benchmark.scenarios.networking` package

Submodules

`yardstick.benchmark.scenarios.networking.iperf3` module

`yardstick.benchmark.scenarios.networking.netperf` module

`yardstick.benchmark.scenarios.networking.ping` module

`yardstick.benchmark.scenarios.networking.ping6` module

`yardstick.benchmark.scenarios.networking.pktgen` module

`yardstick.benchmark.scenarios.networking.sfc` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation_noisy` module

`yardstick.benchmark.scenarios.networking.vtc_throughput` module

`yardstick.benchmark.scenarios.networking.vtc_throughput_noisy` module

Module contents

`yardstick.benchmark.scenarios.parser` package

Submodules

`yardstick.benchmark.scenarios.parser.parser` module

Module contents

`yardstick.benchmark.scenarios.storage` package

Submodules

`yardstick.benchmark.scenarios.storage.fio` module

Module contents

Submodules

`yardstick.benchmark.scenarios.base` module

Module contents

Module contents

`yardstick.cmd` package

Subpackages

`yardstick.cmd.commands` package

## Submodules

`yardstick.cmd.commands.runner` module

`yardstick.cmd.commands.scenario` module

`yardstick.cmd.commands.task` module

## Module contents

## Submodules

yardstick.cmd.cli module

## Module contents

yardstick.common package

## Submodules

yardstick.common.task\_template module

yardstick.common.template\_format module

yardstick.common.utils module

## Module contents

yardstick.dispatcher package

## Submodules

yardstick.dispatcher.base module

yardstick.dispatcher.file module

yardstick.dispatcher.http module

yardstick.dispatcher.influxdb module

yardstick.dispatcher.influxdb\_line\_protocol module

## Module contents

yardstick.orchestrator package

## Submodules

yardstick.orchestrator.heat module

## Module contents

yardstick.plot package

## Submodules

yardstick.plot.plotter module

## Module contents

---

yardstick package

## Module contents

yardstick.vTC.apexlake package

Subpackages

yardstick.vTC.apexlake.experimental\_framework package

Subpackages

yardstick.vTC.apexlake.experimental\_framework.benchmarks package

Submodules

yardstick.vTC.apexlake.experimental\_framework.benchmarks.benchmark\_base\_class module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_noisy\_neighbors\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.multi\_tenancy\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.rfc2544\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.test\_benchmark module

Module contents

yardstick.vTC.apexlake.experimental\_framework.constants package

Submodules

yardstick.vTC.apexlake.experimental\_framework.constants.conf\_file\_sections module

yardstick.vTC.apexlake.experimental\_framework.constants.framework\_parameters module

Module contents

yardstick.vTC.apexlake.experimental\_framework.libraries package

Module contents

`yardstick.vTC.apexlake.experimental_framework.packet_generators` package

#### Submodules

`yardstick.vTC.apexlake.experimental_framework.packet_generators.base_packet_generator` module

`yardstick.vTC.apexlake.experimental_framework.packet_generators.dpdk_packet_generator` module

#### Module contents

#### Submodules

`yardstick.vTC.apexlake.experimental_framework.api` module

`yardstick.vTC.apexlake.experimental_framework.benchmarking_unit` module

`yardstick.vTC.apexlake.experimental_framework.common` module

`yardstick.vTC.apexlake.experimental_framework.deployment_unit` module

`yardstick.vTC.apexlake.experimental_framework.heat_manager` module

`yardstick.vTC.apexlake.experimental_framework.heat_template_generation` module

#### Module contents

#### Submodules

`yardstick.vTC.apexlake.setup` module

#### Module contents

#### Module contents

### 1.1.2 Submodules

#### 1.1.3 `yardstick.main` module

#### 1.1.4 `yardstick.ssh` module

#### 1.1.5 Module contents
