

# Yardstick Framework Code Documentation

*Release draft (0bbd731)*

**OPNFV**

March 25, 2016

CONTENTS

<b>1</b>	<b>yardstick</b>	<b>1</b>
1.1	yardstick package . . . . .	1

## YARDSTICK

### 1.1 yardstick package

#### 1.1.1 Subpackages

yardstick.benchmark package

Subpackages

yardstick.benchmark.contexts package

Submodules

yardstick.benchmark.contexts.base module

yardstick.benchmark.contexts.dummy module

yardstick.benchmark.contexts.heat module

yardstick.benchmark.contexts.model module

yardstick.benchmark.contexts.node module

Module contents

yardstick.benchmark.runners package

Submodules

yardstick.benchmark.runners.arithmetic module

yardstick.benchmark.runners.base module

yardstick.benchmark.runners.duration module

yardstick.benchmark.runners.iteration module

yardstick.benchmark.runners.sequence module

#### Module contents

yardstick.benchmark.scenarios package

#### Subpackages

yardstick.benchmark.scenarios.availability package

#### Subpackages

yardstick.benchmark.scenarios.availability.attacker package

#### Submodules

yardstick.benchmark.scenarios.availability.attacker.attacker\_baremetal module

yardstick.benchmark.scenarios.availability.attacker.attacker\_process module

yardstick.benchmark.scenarios.availability.attacker.baseattacker module

#### Module contents

yardstick.benchmark.scenarios.availability.monitor package

#### Submodules

yardstick.benchmark.scenarios.availability.monitor.basemonitor module

yardstick.benchmark.scenarios.availability.monitor.monitor\_command module

yardstick.benchmark.scenarios.availability.monitor.monitor\_process module

#### Module contents

#### Submodules

`yardstick.benchmark.scenarios.availability.serviceha` module

Module contents

`yardstick.benchmark.scenarios.compute` package

Submodules

`yardstick.benchmark.scenarios.compute.cpload` module

`yardstick.benchmark.scenarios.compute.cyclictest` module

`yardstick.benchmark.scenarios.compute.lmbench` module

`yardstick.benchmark.scenarios.compute.perf` module

`yardstick.benchmark.scenarios.compute.unixbench` module

Module contents

`yardstick.benchmark.scenarios.dummy` package

Submodules

`yardstick.benchmark.scenarios.dummy.dummy` module

Module contents

`yardstick.benchmark.scenarios.networking` package

Submodules

`yardstick.benchmark.scenarios.networking.iperf3` module

`yardstick.benchmark.scenarios.networking.netperf` module

`yardstick.benchmark.scenarios.networking.ping` module

`yardstick.benchmark.scenarios.networking.ping6` module

`yardstick.benchmark.scenarios.networking.pktgen` module

`yardstick.benchmark.scenarios.networking.sfc` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation` module

`yardstick.benchmark.scenarios.networking.vtc_instantiation_validation_noisy` module

`yardstick.benchmark.scenarios.networking.vtc_throughput` module

`yardstick.benchmark.scenarios.networking.vtc_throughput_noisy` module

Module contents

`yardstick.benchmark.scenarios.parser` package

Submodules

`yardstick.benchmark.scenarios.parser.parser` module

Module contents

`yardstick.benchmark.scenarios.storage` package

Submodules

`yardstick.benchmark.scenarios.storage.fio` module

Module contents

Submodules

`yardstick.benchmark.scenarios.base` module

Module contents

Module contents

`yardstick.cmd` package

Subpackages

`yardstick.cmd.commands` package

## Submodules

`yardstick.cmd.commands.runner` module

`yardstick.cmd.commands.scenario` module

`yardstick.cmd.commands.task` module

## Module contents

## Submodules

yardstick.cmd.cli module

## Module contents

yardstick.common package

## Submodules

yardstick.common.task\_template module

yardstick.common.template\_format module

yardstick.common.utils module

## Module contents

yardstick.dispatcher package

## Submodules

yardstick.dispatcher.base module

yardstick.dispatcher.file module

yardstick.dispatcher.http module

yardstick.dispatcher.influxdb module

yardstick.dispatcher.influxdb\_line\_protocol module

## Module contents

yardstick.orchestrator package

## Submodules

yardstick.orchestrator.heat module

## Module contents

yardstick.plot package

## Submodules

yardstick.plot.plotter module

## Module contents

---

yardstick package

## Module contents

yardstick.vTC.apexlake package

Subpackages

yardstick.vTC.apexlake.experimental\_framework package

Subpackages

yardstick.vTC.apexlake.experimental\_framework.benchmarks package

Submodules

yardstick.vTC.apexlake.experimental\_framework.benchmarks.benchmark\_base\_class module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.instantiation\_validation\_noisy\_neighbors\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.multi\_tenancy\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.rfc2544\_throughput\_benchmark module

yardstick.vTC.apexlake.experimental\_framework.benchmarks.test\_benchmark module

Module contents

yardstick.vTC.apexlake.experimental\_framework.constants package

Submodules

yardstick.vTC.apexlake.experimental\_framework.constants.conf\_file\_sections module

yardstick.vTC.apexlake.experimental\_framework.constants.framework\_parameters module

Module contents

yardstick.vTC.apexlake.experimental\_framework.libraries package

Module contents

`yardstick.vTC.apexlake.experimental_framework.packet_generators` package

**Submodules**

`yardstick.vTC.apexlake.experimental_framework.packet_generators.base_packet_generator` module

`yardstick.vTC.apexlake.experimental_framework.packet_generators.dpdk_packet_generator` module

**Module contents**

**Submodules**

`yardstick.vTC.apexlake.experimental_framework.api` module

`yardstick.vTC.apexlake.experimental_framework.benchmarking_unit` module

`yardstick.vTC.apexlake.experimental_framework.common` module

`yardstick.vTC.apexlake.experimental_framework.deployment_unit` module

`yardstick.vTC.apexlake.experimental_framework.heat_manager` module

`yardstick.vTC.apexlake.experimental_framework.heat_template_generation` module

**Module contents**

**Submodules**

`yardstick.vTC.apexlake.setup` module

**Module contents**

**Module contents**

## 1.1.2 Submodules

### 1.1.3 `yardstick.main` module

### 1.1.4 `yardstick.ssh` module

### 1.1.5 Module contents
